# The Charge

- Define the scope of an all-digital FDLP.
- Examine the current landscape in Federal depository libraries, FDLP-related operations at GPO, and the dissemination of publications by Federal agencies.
- Study the feasibility of a digital FDLP.
- Make recommendations as to how to implement and operate such a program, should that be the recommendation.

# Areas of Investigation

- Impact on Access
- Impact on Depository Libraries
- Impact on Federal Agencies
- Impact on GPO, LSCM
- Title 44, Legislative and Policy Issues
- Implementation and Strategic Framework

# What We Learned

- We can and should go all-digital but there are a number of significant societal, technical, implementation, practice, and legislative matters that require consideration.
- GPO should dedicate a significant amount of resources to training and managing the transition.
- An all-digital FDLP may not mean no printed materials.
- Build and expand current collaborations with Federal agencies.

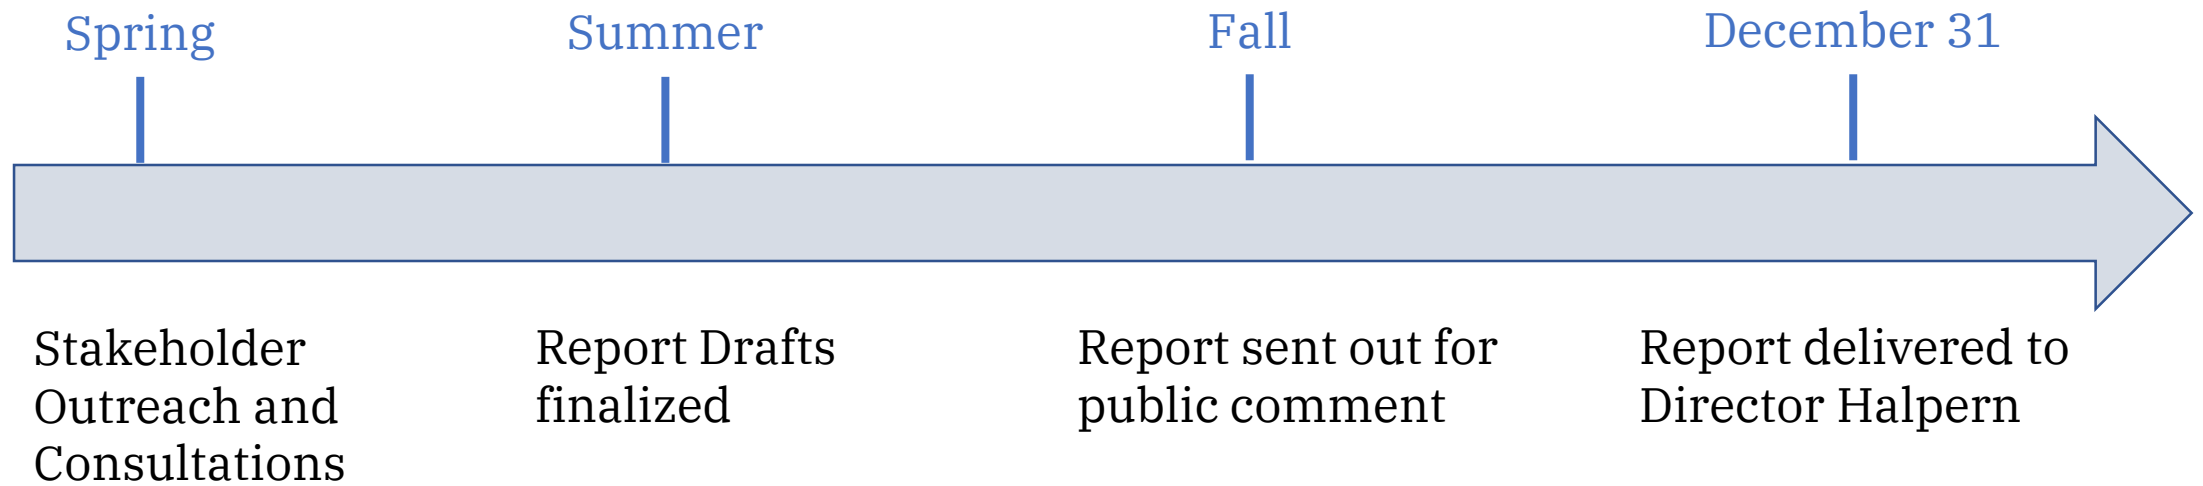

# Public Comment Period

- Our draft report was released for a 30-day public comment period on September 14.
- You have 2 days left to comment, and we'd love to hear from you.
- You can find the draft report and the online comment form on our website:

# Microfiche Phase Out

- December 2021: libraries were [alerted](#) to the phase out of microfiche distribution in the FDLP.
- March 2022: Microfiche contract for the Code of Federal Regulations (CFR) and the CFR Index and Finding Aids ended.
- April 2022: Deadline for libraries wanting to add paper formats to their DSIMS profile.
- April 2022: Microfiche contract for House and Senate Journals, Y1s, and Y4s ended.
- September 2022: Microfiche contract ended for bound Congressional Record.

# Microfiche Phase Out

March 31, 2022	Microfiche contract for the Code of Federal Regulations (CFR) and the CFR Index and Finding Aids ended.
April 22, 2022	Deadline for libraries selecting <a href="#">microfiche format of titles</a> on microfiche contract ending April 30, 2022 to add desired paper items to DSIMS cart
April 25, 2022	Paper items in DSIMS carts added to libraries' item selections
April 30, 2022	Microfiche contract for House and Senate Journals, Y1s, and Y4s ended.
September 30, 2022	Deadline for libraries to add paper items for bound and/or daily Congressional Record, Federal Register, and/or LSA to their DSIMS carts

December 2022-January 2023	GPO ceases acquisition of Federal Register, LSA, and daily Congressional Record in microfiche for FDLP distribution. Distribution of Federal Register and LSA microfiche to end with final 2022 issues.
December 2022-January 2023	Distribution of daily Congressional Register to end with last issues of 117th Congress.

# Supporting libraries through transition

- Continue to recruit [Preservation Stewards and Print Selectors](#) to ensure access to these titles.
- Facilitate collaboration at the National Collection Service Area level.
- Encourage collection development collaboration among FDLs:
  - [Selective Housing Agreements \(SHAs\)](#) to house regional copies.
  - De-duplication of holdings in states with two regionals via SHAs.
  - New shared regional arrangements.
- Provide Superintendent of Documents authorization to weed or authorization to deselect, as appropriate.
- Maintain communication with the library community.

# askGPO

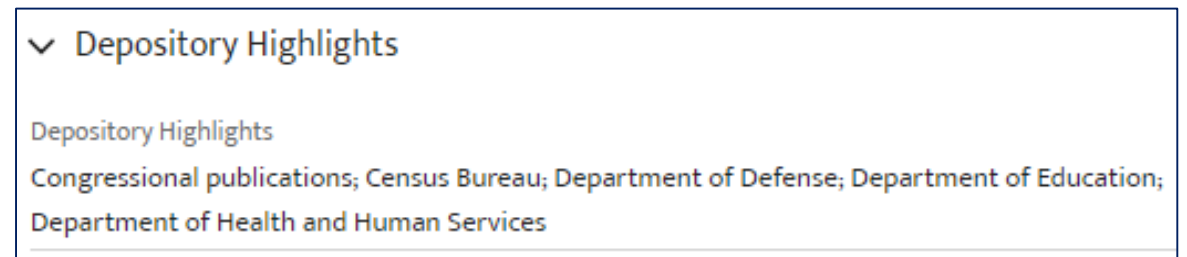

## Selected highlights from 2021-22:

- Updated Federal Depository Library Directory (FDLD).
  - Added National Collection Service Area (NCSA) field to directory entries.
  - Initiated FDL Directory clean-up project.
- Released Biennial Survey using Salesforce survey application during 2021 Biennial Survey.
- Knowledgebase maintenance began.

# Depository Highlights

- A new text field in the FDL Directory.
- Purposes:
  - Promote and showcase your depository collections.
  - Network with FDLs to exchange information.
  - Refer as a resource about other FDLs.
- Highlights can include:
  - Scope of depository collections.
  - Specific serial runs.
  - Subjects.
  - SuDoc stems.

Screenshot of Depository Highlights for [Samford University Library \(0005\)](#)

# Depository Highlights Examples

- [Wilbur C. Hall Law Library \(0630B\)](#)
  - *Congressional Publications; Foreign Relations; Judiciary; Justice Department; Labor Relations; U.S. Code; U.S. Serial Set (electronic); print collection is largely contemporary (materials published in the last 5 to 7 years).*
- [Murphy Library \(0666A\)](#)
  - *Subject areas emphasized: Business, Education, Health, Physical Education and Recreation. Geographic areas emphasized: Wisconsin, Minnesota, Iowa.*

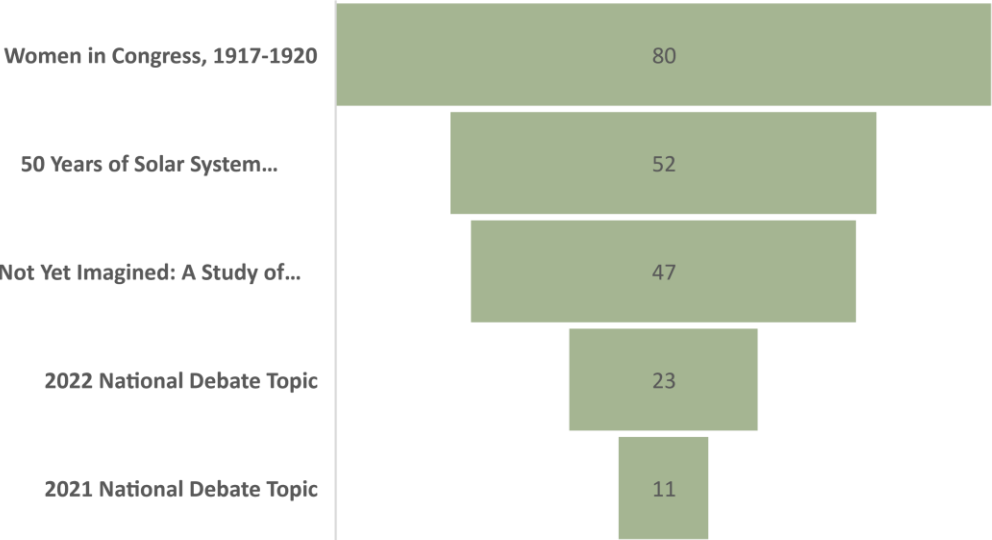

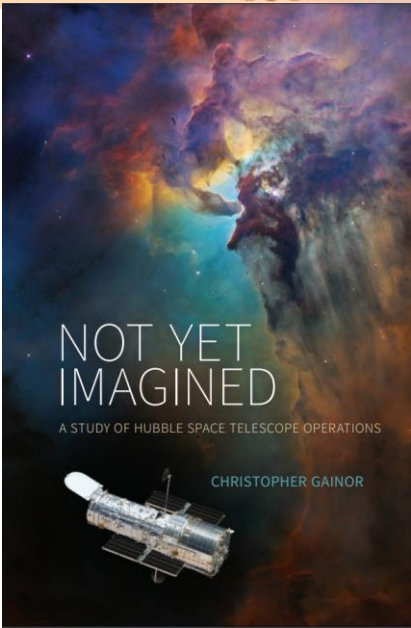

Lara Flint, Administrative Librarian

# Special Selection Offers

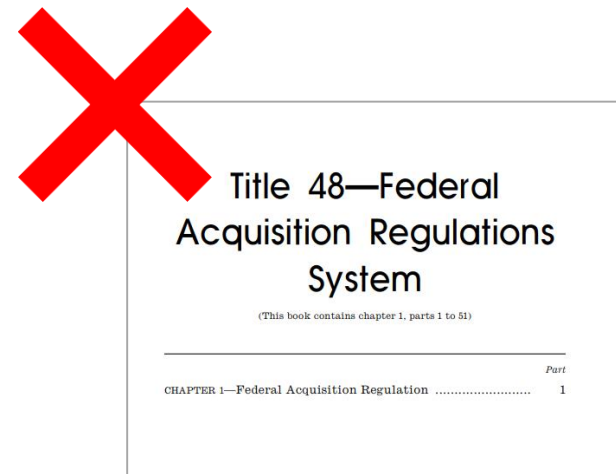

- These are a great option for any FDL, including all-digital FDLs.
- We began in 2019; in FY2022, we offered 6 publications.
- Our most popular 2022 offer was *Women in Congress, 1917-2020*.

# Selections

- We've made some changes in the past year that give you more flexibility in what you can select and how.
- Now anyone (not just regionals) can select:
  - Supreme Court slip opinions
  - Bound Congressional Record
  - Bound Serial Set
- Code of Federal Regulations – by individual title!

Fang Gao, Chief of Library Technical Services

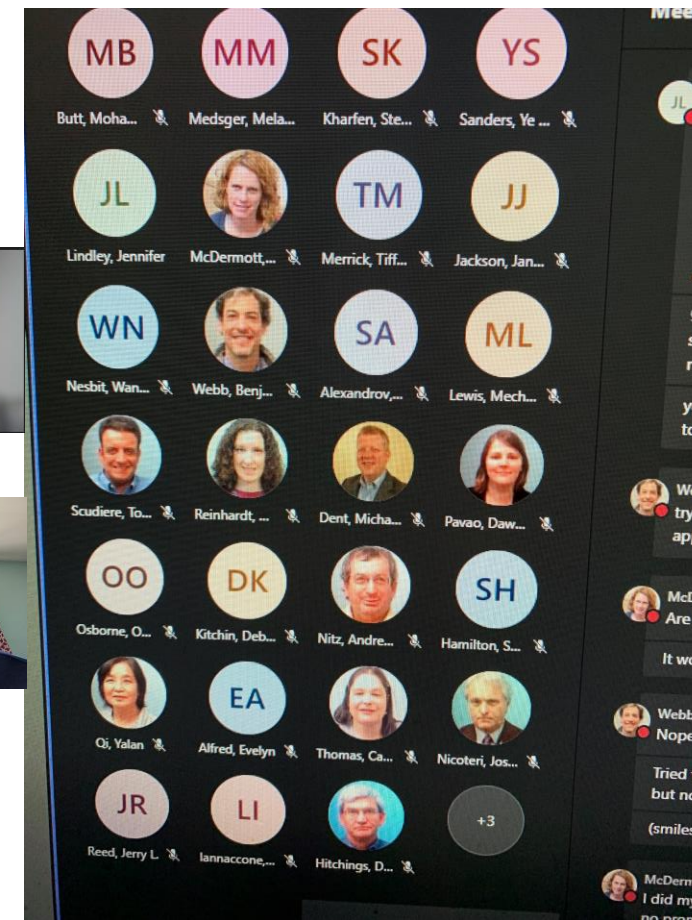

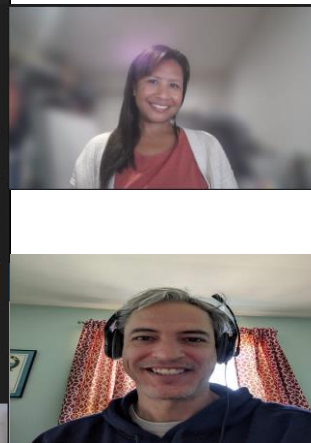

# Library Technical Services: Topics

- Overview of LTS
- Cataloging/Metadata Initiatives
- BIBFRAME Partnership with Library of Congress
- RDA Updates

# Pictures of LTS Staff

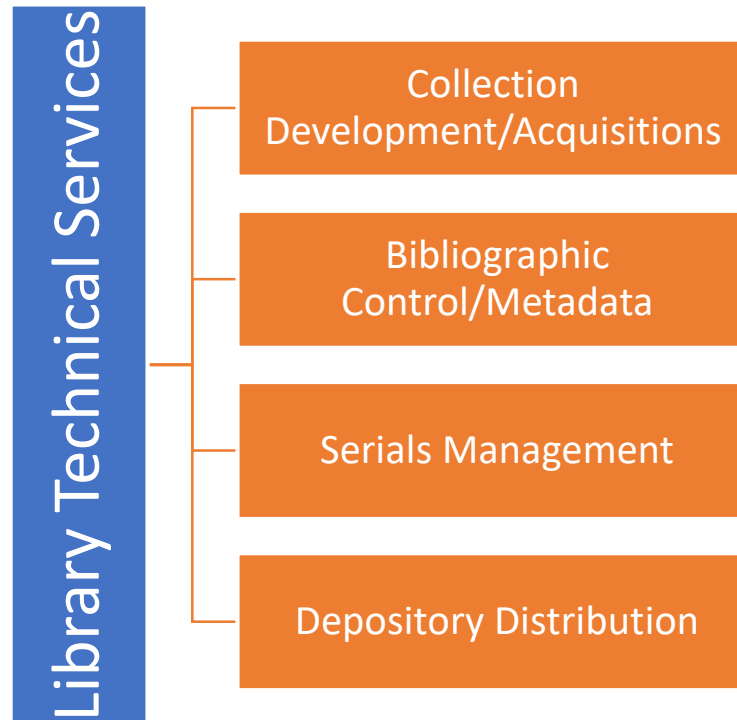

# LTS Overview

Mission: to support Federal depository libraries (FDLs), U.S. Federal Government agencies, and all LTS stakeholders to fulfill their needs for U.S. Federal Government information.

Core functions: identify, acquire, classify, catalog, disseminate, and make Government publications and information products accessible to depository libraries and the general public.

# Library Technical Services

50 FTEs

# LTS Operations Updates

- GPO Cataloging Policy changes.
- Webcast in FDLP Academy: [Exploring Cataloging of Federal Government Documents at GPO](#).
- Cataloged the websites of the House and Senate committees.
- GPO's LCSH proposals.
- RDA Training.
- BIBFRAME Partnership with LC.
- Cataloging projects.
- Customized Record Sets on GitHub.

# Keeping Informed

LSCM Library Technical Services Information Portal

Stephen Kharfen, Supervisory Librarian

# Federal Government Publication Characteristics and GPO Records

- We are exploring how to represent the essential characteristics of Federal Government information products in GPO cataloging/metadata.
- The purpose is to provide access to the key facets, such as branch of Government and public policy areas.
- The metadata will be explicit and intended to be usable in the linked data world.
- The scope includes bibliographic and authority records.

# Plans to Test the Introduction of New Metadata Elements

- We will start with testing the inclusion of new metadata elements in bibliographic records.
- We will shortly begin to add one term from the Congress.gov Policy Areas list in records for Congressional publications.
- We will also begin to include notes stating whether the publication is in scope of the Federal Depository Library Program and/or the Cataloging and Indexing Program.

# Test Records for Bills and Resolutions

- We are developing a plan to test the production of MARC records for bills and resolutions based on the GovInfo MODS metadata for these resources.
- The records will be cataloged as integrating resources.
- The intention is to represent the various versions and actions of these measures as they move through the legislative process and are published in GovInfo.
- The records will include PURLs to GovInfo and URLs to Congress.gov.

# CGP Data Dashboard on FDLP.gov

- In March 2022, LTS launched the [CGP Data Dashboard](#) to visualize various aspects of the bibliographic records in the Catalog of U.S. Government Publications (CGP).
- The Dashboard is the start of our exploration of the CGP as a data set.
- We plan to use CGP data to tell stories about Government information and the FDLP and to represent LSCM's work.
- Most recent addition: the top 10 subject headings used in records for the hearings of the 117<sup>th</sup> Congress.

Oksana Osborne, Librarian (Metadata Integrity)

# URIs

Uniform Resource Identifiers in GPO's Bibliographic Records

# URIs added

- URI = Uniform Resource Identifier
- Enables linked data
- Added for authorized access points in bibliographic records
  - Connects to the associated authority record
- Close to 5 million URIs added to the CGP

# URI link from bib to authority

- Imperfect machine matching
- Some mismatches (mostly for personal names)
- Need to prevent mismatches
- Re-evaluated GPO policy to limit creation of personal name authority records (NARs)
- Less robust NARs for some persons

# BIBFRAME Partnership: Statistics

- 70+ questions asked (& answered by LC staff!)
- 26 Work, 31 Instance records completed
- Record types:
  - monograph, multipart monograph, serial, integrating resource
  - map, hearing, public law, foreign language, bilingual, streaming video, braille
  - print format, electronic format

# BIBFRAME Partnership: Outcome

- LTS gained firsthand experience with BIBFRAME
- LTS provided LC with an “outsider” perspective
- Marva and public-facing database are still in development
- LC network staff are continually making changes based on cataloger feedback

# BIBFRAME: Next steps

- LTS will need to decide whether/when to implement
- Decisions will need to be made for elements unique to Government documents

# Ben's Guide to the U.S. Government

- Ben's Guide launched in 1999 in response to [a memorandum](#) from Bill Clinton's administration recommending agencies have a children's website. Ben's Guide was redesigned and relaunched in 2015.
- The objective is to educate learners of all ages about the U.S. Government and Government information.

# Project Goals

- Move Ben's Guide to an updated infrastructure and a more secure CMS platform. This is mandated by GPO IT Security.
- Improve the existing Ben's Guide by expanding current Learning Adventures, creating new activities and downloadable content, and leveraging updated technology.
- Build and maintain partnerships to identify areas of need, support the creative process, and confirm educational standards are met.
- Refine the Learning Adventures to smaller age brackets while adding a new bracket for 14+ created with a less cartoony, high-school-level area that focuses on advanced research methods with Government documents.

# Building Ben's Future

- Provide opportunities to introduce users to GPO as an agency and our (free and authoritative) resources: GovInfo, the CGP, MetaLib, and FDLP.gov.
- Use analytics to optimize content for more engaging content and a more engaging user experience to our committed and growing userbase.
- Leverage the website and character to raise awareness, spark dialogs, and initiate partnerships resulting in quality content.

# FDLP Web Archive

- The FDLP Web Archive provides point-in-time captures of U.S. Federal agency websites, while preserving the functionality of the site to the extent possible, with an aim to provide permanent public access.
- Continue to increase the size of the web archive, still concentrating on recrawls of existing websites, while adding some new ones like Federal Judicial Center and America250.
- Working with the Salesforce contractors on enhancements to askGPO for external users for the FDLP Web Archive, and for internal workflow developments that will help us better manage our collections.
